

K-Love (90.1) is the main station I listen to on a daily basis. It provides me with music that is positive and uplifting. My teenage girls listen to K-Love and it would be a great dis-service to them if they were to lose this positive influence in such a negative world! Our youth is our future and K-Love provides them with a positive influence that is so greatly needed if they are to succeed in life. Negative is negative and it will reap what it sows! Positive reaps positive and that is what we so desperately need! We need the positive choices to counter the negative choices that are also provided by the FCC.
